**Introducing the CB-100, perfect for a variety of settings including home use, test kitchens, bakery shops, pastry shops, or chocolate shops! Built with the same design standards and materials as our larger machines, the CB-100 features an oversized condensing unit, allowing you to continuously produce frozen desserts for years.**

**The CB-100 is versatile, capable of making ice cream, gelato, dairy-free options, Italian ice, fresh fruit sorbets, and frozen lemonade. It plugs into regular household current and includes a removable freezing cylinder. Need to make a new flavor? Simply drop in the optional spare stainless steel freezing cylinder and keep creating without any downtime. Plus, all parts are dishwasher safe, making cleanup a breeze.**

**Lightweight with a small footprint, the CB-100 can comfortably fit on any counter for easy use!**
